Introduction

We are pleased to present a rare opportunity to acquire two licensed childcare centers in Broward County, operating under common ownership and financials. Together, these schools offer 167 licensed capacity, a combined operational history of over 30 years, and strong fundamentals with room for growth.

Located in Lauderhill and North Lauderdale, FL, the schools are strategically positioned near major roadways and densely populated residential areas, making them highly convenient for commuting families. The surrounding communities show consistent demand for quality childcare services, and both facilities are well known locally.

The Lauderhill location is a large end-cap unit within a multi-tenant retail center, while the North Lauderdale site is a freestanding building with excellent street visibility and dedicated parking.

This portfolio is especially attractive as it qualifies for **Seller Financing**, offering a streamlined path to ownership with significant capital preservation. By providing a structured internal lending option, the seller demonstrates complete confidence in the centers' continued financial health and operational stability.

Key Advantages

- Combined capacity for **167 children**, with a strong base of VPK and after-school enrollment
- **Large, well-furnished classrooms** in both locations
- Approx. **16,443 sq ft** (Lauderhill) + **~3,946 sq ft** (North Lauderdale)
- Combined rent of **$18,925/month**, partially offset by **$8,000/month sublease income**
- One 15-passenger van (owned free and clear)
- Facilities are underutilized, offering upside through improved enrollment and operations

Strategic Owner Financing Terms

This turnkey package is designed for a smooth transition, featuring a financing structure that bypasses the hurdles of traditional bank underwriting.

Key Advantages

- **50% Seller Financing:** The seller will carry half of the purchase price, significantly lowering the initial cash required at closing.
- **7.5% Interest Rate**: Benefit from a competitive, fixed interest rate that often outperforms current commercial market averages.
- **Easy Approval Process**: Avoid extensive paperwork and the weeks of waiting typical of traditional lenders; at the seller's discretion, financing is significantly easier and faster than going through a bank.
- **Minimal Closing Costs:** Unlike traditional SBA or bank loans, this private arrangement involves little closing fees, saving you thousands upfront.
- **5-Year Balloon:** Enjoy five years of stable, predictable payments before the balance is due, providing ample time to optimize operations or secure long-term refinancing.
- **Faster Path to Ownership:** Eliminate months of bank delays and extensive paperwork; move from contract to operation in a fraction of the time.
